

Friends of the Foundation

The Kristin Foundation Scholarship Programme is an important initiative that supports students who would not otherwise be able to benefit from a Kristin education. A growing number of scholarship students are thriving in our classrooms thanks to the generosity of our school community, and the many wonderful attributes they bring to school life make it impossible to imagine Kristin without them.

Kristin

A Message from Board Chairman Philippa Fee

Foundation Scholarships are currently funded by personal donations and corporate sponsorship. Our aim is to build this programme to be self-funding so we can ensure many more students will benefit from its support in the years ahead.

It is with this in mind that I would like to invite you to join me in becoming a member of our philanthropic group, 'Friends of the Foundation' by making a gift of your bond to this fund. In doing so you will be contributing directly to the future education of many bright and talented students, ensuring the values on which our school was founded are carried forward into the future.

Yes

Supporting future students through Scholarships is important to us.

We look forward to becoming a Friend of the Foundation by donating our Bond (or balance thereof) to the Kristin Foundation Scholarship Programme.
